Italian Sovereign Spectator at "Norge" Tests

[P. & A. Photo]

Royalty Watches Polar Dirigible in Flight

King Victor Emmanuel III of Italy was an interested spectator recently during the test flight of the dirigible Norge, in which Capt. Amundsen will attempt to explore the Arctic. He is shown here, third from the left, watching the airship in flight.

BRITISH AIR DEPOT

TO WELCOME VISITOR

DET. CALIF.—EXCLUSIVE DISPATCH

PULHAM, (Eng.) April 8.—

The British Air Ministry's air-

depot at this little Norfolk village

made all arrangements for the

visit of Amundsen's airship, the

Norge, on its way to Spitzbergen

and the North Pole.

Capt. G. F. Meager, in charge

of the airdepot, expected the

Norge to reach here tomorrow,

but tonight received word that

she would not start from Rome

this morning as planned. However,

when she comes she will find the

great doors of one of the hangars

ready to swing open to receive her.

According to Capt. Meager, no

trial will be made of the Norge's

strength here. She will merely use

Pulham as a resting place on the

way north. She will be towed into

the hangar instead of being

tethered to the mooring mast.

The officers and crew of the

Norge will stay in the surrounding

town.

It is expected that the airship

will remain here at least a week

and perhaps longer if the weather

is unfavorable.

NEW TOWN BORN IN DESERT

Kramer Hills Officially Takes Root as Representative of
Evangelist Sunday and Son Complete Formalities;
Angeleno Buys First Lot for Mining Exchange

(BY A. P. NIGHT WIRE)

BAKSTON, April 8.—A new American town was called into existence and christened thirty miles west of here today by M. Patrick, who said he represented Rev. William A. Sunday, evangelist, and his son, George Sunday, Los Angeles real estate operator.

Sunday and his son quietly bought 160 acres of patented ground near the scene of the recent gold strike of Ed and John Heckler in the Kramer hills, and at 4 p.m. today the town of Kramer Hills officially took root in the Mojave Desert with completion of a plat by Edward L. Hart, deputy United States mineral surveyor.

Tonight the nondescript mining camp of tents clustered about the rich claims of the Hecklers was moving to its new location, seek-

ing an outward expression of permanency and dignity.

The first lot was bought by George L. Koller of Los Angeles, who will open a mining exchange. Lumber for his office already has been purchased here and business at the exchange will begin Sunday.

SON DENIES FATHER'S CONNECTION WITH TOWN

George Sunday at his home in Los Angeles last night denied that his father was in any way interested in the new town of Kramer Hills.

"A syndicate, of which I am a member and in which I have a small interest, is promoting the new town, but my father has nothing to do with it," declared the son.

HUNGER STALKS ALASKAN PARTY

Survivor Tells of Hardships Met on Arctic Trip

Group Carrying Supplies Lacks Food for Dogs

Snowstorms, Cold, No Fuel or Game on Long Journey

(BY CARL AND ASSOCIATED PRESS)

WHEMAN (Alaska) April 9.—A tale of almost unbelievable hardships experienced by Alexander Malcolm Smith and his party who are struggling northward across virtually unexplored wastes of Northern Alaska with supplies for the Point Barrow base of an Arctic expedition of Capt. George H. Wilkins was told here today.

James Minano, a 70-year-old Japanese, who has lived north of the Arctic Circle nearly all his life, traveled with the party from Bettles for 200 miles northward along the John River and returned to Bettles after Smith turned Minano and a number of natives loose when food ran short. Minano was without food for three days before reaching Bettles and arrived there exhausted and famished. He came here today.

MEET MANY SNOWSTORMS

He said the party encountered numerous snowstorms and the temperature averaged zero. All were wet during the days and enjoyed little or no comfort at night. The party held a day's average along the John River, which runs south from the top of the Brooks Range into the Koryukuk, tributary of the Yukon. Bettles is at the junction of the John and Koryukuk.

After leaving Fairbanks, food for the men and dogs was taken at Bettles. Flour, bacon and ham lasted four days and then the rations consisted of hardtack, corn bread, peanut butter and black coffee.

The weather improved after the party crossed the summit of the Brooks Mountains, but the temperature dropped and averaged 15 deg. below zero, with strong easterly winds. The lowest temperature recorded was 37 below zero.

NO WILD GAME SEEN

After crossing the Brooks Range, however, better times were made as the party picked up the trail. Wild game was expected for dog food but none was seen. Even on the trail, which rabbits are usually common in the Arctic.

No one rode a step as the rapidly ebbing energy of the dogs was needed. Smith lost two dogs from his team after reaching the summit. One of the animals dropped on the trail from starvation and Smith pronounced it dead. Later, the dog, which had seemingly come to life and returned to the haunts and habits of his ancestors, the wolf, appeared and attacked a team which was bringing up the rear of the division of dog trains.

A driver shot the animal. Minano declared there was no fire on the trip except in the cook's tent, where corn bread and coffee were made. Immediately after the meal was finished the fire would be extinguished, due to the scarcity of fuel, and the waste made being virtually barren of any combustible vegetation.

RATIONS DIVIDED EQUALLY

After four days' journey beyond the summit, the party split when it was seen that all could not reach Point Barrow alive. Koryukuk and Yukon natives were sent back. Rations were divided, and each man was allowed ten pounds of hardtack, but no feed for his dogs. It was thus that Minano left for his long trek back to Bettles.

Minano was shipwrecked thirty years ago near Point Barrow, while working on a whaling vessel, and has lived north of the Arctic Circle ever since. He was one of the discoverers of the Chandlar mining district, and is thoroughly conversant with Arctic conditions. Minano said the party was ill equipped and that he had heard Eskimos about the region which Smith is traversing. The morale of the expedition is excellent, however, he said.

TWO OF PARTY'S DOGS DIED OF STARVATION

(EXCLUSIVE DISPATCH)

FAIRBANKS (Alaska) April 9.—Two dogs of the Detroit Arctic expedition's overland party camped on the Anaktuvik River near its confluence with the Colville River have died within the last three days of starvation, according to a radio dispatch last night from Earl Rosman who with two companions is awaiting the return of A. Malcolm Smith, with provisions and dog feed, Smith and Herbert Anderson, Neama Mushar, left eight days ago for Edwards Trading Post on Jones Island, eighty miles away at the mouth of the Colville, and intended to be back today.

"We can hold out for a few days longer but the dogs are in poor condition," Rosman's message said. "The dogs that died have been cooked and fed to the others. It will take several days to get the dogs into condition to travel."

Capt. George Elbert Wilkins, commander of the expedition, notified Rosman that a relief dog train would go out from Barrow, 100 miles west of the mouth of the Colville, to meet the overland party. A light snow fell here during the night, and the temperature dropped to three below zero.

ONE MILLION WORDS OF EVIDENCE TAKEN

(EXCLUSIVE DISPATCH)

WINNIPEG (Man.) April 9.—One million words of evidence have been taken down in connection with the trial of Joseph Xavier Hearst, former head of a local music publishing house, who is asserted to have defrauded Manitobans of nearly \$1,000,000. Nearly 1200 exhibits have been filed.

ILLNESS UNUSUAL

(EXCLUSIVE DISPATCH)

PITTSFIELD (Mass.) April 9.—Dr. T. F. Curtin of 55 Commonwealth avenue is confined to his home with illness for the first time in thirty-five years. He was prominent in college football and baseball, semiprofessional and professional baseball. Even after giving up competition in these sports he made it a point to play a plenty of exercise and has been an ardent golfer for some years.

Original! ~ Beautiful!

HOWEVER trite such words may seem, they take on a fresh and richer meaning when applied to the new SWANFELDT AWNINGS. If you have seen them, you know what we mean.

These awnings are an innovation in every respect, embodying a design that is unduplicated. Instead of conventional stripes, the pattern is one of graceful scrolls by which different colors are woven into one

harmonious blend. The effect is more than merely beautiful—it is captivating!

SWANFELDT AWNINGS will give your home new distinction and new charm—as well as durable protection from the sun. Telephone for our representative to show you samples now, so that there may be no delay in installation if you are as taken with their unusual beauty as we think you will be.

STATE BANKING CHIEF SCORED

Charged With Favoritism to Local Institutions

Broadside Fired Before Supreme Court

Refusal of Branch Permit Called 'Violation'

(EXCLUSIVE DISPATCH) SAN FRANCISCO, April 9.—John Franklin Johnson, superintendent of the State Banking Department, was pilloried before the California State Supreme Court as it sat on banc today as "an individual who has attempted to secure a monopoly of banking in California for five favored institutions of that city, and to aid in the accomplishment of this purpose, he has invoked a special dispensation of the law that not only exceeds the statutory provisions of the laws of California, but also recalls the language of the jargon of the industrial barons who were subsequently driven out by the federal government in enforcing the Sherman Act."

Johnson was so described by Garrett W. McEnerny, chief counsel for the Bank of Italy, during an argument in which he seeks a writ of mandate from the Supreme Court to compel Johnson to issue permits for the establishment of two branch banks in Los Angeles by the Bank of Italy. Not only was Johnson accused of favoritism toward Los Angeles banks and discrimination against the Bank of Italy, but McEnerny attacked Johnson's refusal to issue permits to the Bank of Italy constituted an unlawful act.

Johnson was quoted from the State Banking Act to show that establishment of branch banks is provided for in any part of California, and that Supt. Johnson's refusal to issue permits to the Bank of Italy constituted an unlawful act.

TAKES NOTES ON TALK

James M. Oliver, attorney for the State Banking Department, took voluminous notes during McEnerny's argument, and it is assumed he will make an exhaustive answer when he replies tomorrow morning.

In substantiating his charge that Johnson is guilty of discriminating against the Bank of Italy in favor of Los Angeles banks, McEnerny said that out of a total of 135 branch-bank authorizations issued in Los Angeles since 1921, only three had been granted to the Bank of Italy.

In effect, McEnerny told the members of the court, "Supt. Johnson said to the Bank of Italy, 'you can't have a branch bank in Los Angeles because you are a San Francisco bank.'"

McEnerny said that the Bank of Italy is here before this court to see whether it ceases to become a citizen the moment it endeavors to enter the city of Los Angeles. We believe the people of Los Angeles have a right to bank with whomsoever they will, regardless of Supt. Johnson and his rules.

We submit that it is not for Supt. Johnson to legislate as to whether branch banks shall be established outside of his home city.

RIGHTS OF BANKS

"The Banking Act of California clearly recognizes and plainly states that every bank in the State has the right to establish branches at any points within the State, and the State Banking Department cannot favor the legislative right thus recognized and granted by denying a San Francisco bank permission to establish a branch office in Los Angeles simply because it is a San Francisco bank."

Mr. Thelen, representing the California League of Independent Bankers, had hardly begun his argument upholding the stand of Supt. Johnson relative to the Bank of Italy when court was adjourned.

"This court," Thelen said, "is concerned with the problem as to whether Supt. Johnson had a legal right under this rule. We contend that he did not."

Thelen will resume his argument tomorrow. He will be followed by Attorney Oliver on behalf of the State Banking Department.

CABINET POST FILLED

Jean Durand Succeeds Malvy in Ministry of France

(BY CABLE AND ASSOCIATED PRESS) PARIS, April 9.—Louis Malvy's resignation as Minister of the Interior was accepted by the Cabinet today. Jean Durand, Minister of Agriculture, was appointed to succeed him. Mr. Durand's successor in the Ministry of Agriculture will be chosen tomorrow.

Malvy's resignation was made known to the members of the Left Bloc of the fact that Malvy is leaving the Cabinet at the behest of many of his radical friends who are opposed to Premier Briand and desire to bring about the return of the Herriot ministry.

From the time he entered Briand's ministry he had been the target for condemnation and abuse.

WOMAN INDICTED AS DRUNKEN AUTO DRIVER

(BY A. P. NIGHT WIRE) SACRAMENTO, April 9.—Mrs. Edith V. Gerrold Agnew, 27 years of age, wife of Dr. W. P. Agnew, was indicted by the Sacramento grand jury Thursday on a charge of having driven an automobile while intoxicated. Mrs. Agnew was arrested today when she was driving a Buick car on the highway near the city of Sacramento. She was taken to the Police Court, where she was arraigned on the charge and her trial will follow.

WOMEN'S SESSION ENDS

(EXCLUSIVE DISPATCH) PHOENIX, April 9.—The annual meeting of the State Federation of Women's Clubs closed this evening with a banquet. Mrs. Lloyd Christy of Phoenix, former president of the Phoenix Women's Club and former State president, was elected president. The vice-presidents are Mrs. George Kitt of Tucson and Miss Louise Friesland of Flagstaff. Mrs. E. H. Mayhew of Bisbee is the new recording secretary and Mrs. Anna Frohmlinger of Flagstaff, treasurer.

QUEEN SEWS AS STORK HOVERS

Mary of England Prepares Beautiful Gifts for Duchess of York

(BY CABLE AND ASSOCIATED PRESS) LONDON, April 9.—Queen Mary personally has made several paramulators or cot covers for the Duchess of York, who is expecting an interesting event some time this spring.

The Queen, who sews beautifully and is extremely fond of doing handwork during odd moments, has worked three pink and three blue covers, crocheted in E. a scallop pattern and lined with crepe de chine of exactly the same shade. The stitches in the crepe are extremely fine, even and small, while the crocheting is described as exquisitely smooth.

SENATORIAL SEAT ISSUE UP MONDAY

Brookhart-Steck Contest Set for Final Decision; Coolidge Influence Denied

(BY A. P. NIGHT WIRE) WASHINGTON, April 9.—The Iowa Senatorial contest will be settled Monday when the Senate votes under an unanimous consent agreement, reached late today. The agreement calls for the limitation of debate to 3 o'clock Monday to 15 minutes for each speaker and a roll call promptly at 5 o'clock.

The vote will decide whether Brookhart, insurgent Republican, will retain his seat or be forced to step out in favor of Daniel F. Steck, his Democratic opponent at the polls in 1924.

The outcome will have an important bearing on the political situation in Iowa as Senator Brookhart has indicated he will become a candidate in the primary against Senator Cummins, Republican, who is running for re-election, if he is unseated.

Official denial was made at the White House of reports that President Coolidge had indicated he is opposed to the seating of Senator Brookhart.

The President, it was said, has no information on which to base judgment as to the merits of the contest and has not expressed an opinion as to who should be seated. He holds to the view that the Constitution makes the Senate the sole judge of contests over Senatorial seats and does not put any burden of such judgment on the Executive.

Place Chosen for Moroccan Peace Meeting

(BY CABLE AND ASSOCIATED PRESS) PARIS, April 9.—Another step toward peaceful settlement of the trouble in Morocco was taken today.

The town of Oudjda (also spelled Ujda) near the Moroccan-Algerian frontier, was chosen as the site for peace negotiations between the Franco-Spanish delegates and representatives of the Rifian tribesmen.

A preliminary Franco-Spanish meeting will be held in Paris as soon as the Spanish delegates are chosen.

Abd-el-Krim will be represented at the Oudjda conference, but the tribes will have independent standing as Abd-el-Krim's.

SAVES LIFE WITH TEETH

Woman's Bites Conquer Enraged Man in Terrific Battle

(BY A. P. NIGHT WIRE) SACRAMENTO, April 9.—Waging a desperate battle for her own life and the safety of her two babies, Mrs. L. W. Gollnick, wife of a farmer of Elk Creek district, yesterday afternoon subdued an enraged farm laborer, Frank Groskops, after he had attacked her with a hammer and beaten her over the head severely, according to a dispatch from Willows. Mrs. Gollnick conquered her attacker by setting his hand with her teeth.

Olvin Gollnick, a brother-in-law, brought the injured woman to the Oudjda hospital. Young Groskops was an orphan boy of Chico, whom the Gollnicks befriended two years ago and who was brought to the ranch to work.

HAWAIIANS WILL NOT SEEK SCHOOL PARLEY

(BY CABLE-EXCLUSIVE DISPATCH) HONOLULU (T. H.) April 9.—The Hawaii Education Association has dropped its plan to go after the 1927 convention of the National Education Association, and if Los Angeles is in the field, as is reported, it may receive help from the Hawaii delegation.

The Hawaii Education Association feels that it is hardly in position to handle the convention and doubts if the convention could be persuaded to come all the way to Hawaii. Instead, there is a movement on foot to go after the 1927 convention of the World Federation of Education, an international conference, which would bring from 1500 to 2000 persons to the islands. The international meeting would be conducted in late July or early August, a week or two after the National Education Association convention. The 1926 convention of the latter body will be at Philadelphia.

SHIP'S CARGO BURNS

(BY CABLE AND ASSOCIATED PRESS) MANILA, April 9.—The entire cargo of the steamer Atlantic City of the Isthmian Line, consisting of sugar, hemp and cargo, was burned today while the ship was near San Carlos, Occidental Negros, in the Philippines. The loss was \$150,000.

ROCKEFELLER AGAIN GRILLED

Questioned for Hours in St. Paul Quiz

Pictured as Dictator of Defunct Road

High Salaries Draw Fire of Federal Lawyers

(BY A. P. NIGHT WIRE) NEW YORK, April 9.—The Interstate Commerce Commission, investigating the collapse of the Chicago, Milwaukee and St. Paul Railroad, bored deep into some of the innermost workings of the management of the road today.

Percy A. Rockefeller, a director of the road from 1906 to 1921, appeared for the second day to give testimony, and underwent hours of grilling at the hands of attorneys for the commission. Despite his previous testimony that he knew nothing of the workings of the road was "merely formal" he was pictured as the actual dictator of the policies of the line.

ATTACKS SALARIES

Daniel C. Grady, special counsel for the State of Illinois, in which State the railroad is incorporated, asked Mr. Rockefeller if he could recall a single instance of action of the board of directors that had been contrary to his desire. Mr. Rockefeller said that for the most part he could not.

Mr. Grady attacked the high salaries paid by the St. Paul road to its executives, citing in particular that H. H. Byram had been elected president at a salary of \$50,000 a year, and that this salary had subsequently been increased by \$15,000, notwithstanding that the railroad was losing money.

"Did you ever see anything in Mr. Byram's record as the head of a road which, with the exception of two years, was unable to pay its carrying charges, to justify a \$15,000 increase in his salary?" Mr. Grady asked.

Mr. Rockefeller said the St. Paul had to pay higher salaries because other roads were doing so, and costs were going up.

CONSIDERS SPOULE

Mr. Rockefeller said he was considered before Mr. Byram was made president of the St. Paul. One of these was William Sproule, head of the Southern Pacific, and the other was the operating vice-president of the Illinois Central at that time, whose name Mr. Rockefeller could not recall.

He said that J. Ogden Armour never had liked the late Mr. Earling, the former president of the St. Paul and had opposed his continuance in office.

Mr. Grady brought out the fact that Mr. Rockefeller was made a director of the Gary Belt Line Railroad, which was purchased in 1921 by the St. Paul and which had resigned as a director of the St. Paul, but that he had never attended a meeting of the board.

INDUSTRIAL DRAFT PLAN DRIVE BEGUN

Capper Bill Proponents and Legion Urge Scheme as "Peace" Measure

(BY A. P. NIGHT WIRE) WASHINGTON, April 9.—The American Legion drive for a universal draft of industry as well as man power in event of war began today before the Senate Military Committee with proponents of the Capper bill urging its enactment as "a peace plan as well as a preparedness measure."

John Thomas Taylor, vice-chairman of the Legion legislative committee, declared the measure would prevent delay in mobilization in case war was declared.

"There will be another emergency," he warned, "and we need not blind ourselves to the fact that, even when other nations know that America is prepared, every country trying a chip on its shoulder would give careful consideration before it acted."

Mal. Gen. Hanson Ely, head of the Army War College, said that "at the end of the war we had a system which even the Germans envied." He said the Capper measure would prevent delay in mobilization in case war was declared.

PRISONERS ESCAPE IN TENNESSEE

Sixteen Overpower Guards and Leave by Front Door of State Prison

(BY A. P. NIGHT WIRE) NASHVILLE (Tenn.) April 9.—Sixteen prisoners escaped from the State penitentiary in West Nashville tonight by overpowering guards and then leaving by the front entrance.

Once outside the penitentiary the convicts boarded a street car at the end of the line and robbed the motorman and conductor. A few of the prisoners also robbed the driver of an automobile near the penitentiary gate and escaped. In the machine.

Every available deputy from the office of Bob Briley, Sheriff of Davidson county, was dispatched to points of vantage within the vicinity of the penitentiary. City police also aided in the search.

HOLLYWOOD BANK THEFT SUSPECT HELD

(EXCLUSIVE DISPATCH) SAN FRANCISCO, April 9.—Jack Columbe, alias John Murphy, was arrested today as one of the five participants in the robbery of the Hollywood branch of the California Bank in Hollywood, and late in the afternoon police began investigating his past in an attempt to link him with three San Francisco bank robberies.

Tres veces por semana se insertará una lección práctica elemental de castellano, y los lunes encontrará el lector dos lecciones para estudiantes adelantados.

A quienes deseen aumentar sus conocimientos de español les conviene leer esta columna todos los días.

NOTAS TELEGRAFICAS

Cerrándose más de Cien Escuelas

CIUDAD DE MEXICO, April 9.—En un plazo de dos semanas quedarán clausurados más de 100 colegios católicos, porque no quieren someterse a la ley de educación laica. Semioficialmente se dice por aquí que los colegios han recibido órdenes de Roma de cerrar sus puertas antes que excluir de su programa la educación religiosa.

Hace dos meses, cuando se hallaba el país excitado por el cierre de las escuelas católicas, el gobierno ocurrió a la idea de decretar para que dichos establecimientos se cerraran a la ley, y los permisos para abrir sus puertas fueran otorgados a los directores de las escuelas. Entretanto, el consejo eclesiástico resolvió no someterse a la ley de educación laica y no reconocer los derechos de propiedad del gobierno sobre las iglesias.

La prensa informaba ayer de que el consejo eclesiástico había decidido también dejar que se cerraran todas las iglesias de México, antes que hacer una manifestación de desobediencia a la ley. Pero el gobierno no insistió en exigirlos. En estos últimos dos días ha aumentado de modo tremendo entre los católicos la excitación, que, en parte se ha calmado.

Llega por Fin a Suelo Norteamericano la Esquifita Raquel Melier

NUYORK, April 9.—Raquel Melier, "la inexplicable," ha llegado por fin a su suelo yanqui. La caprichosa diva española, por la que París se agitó, ocurrió a la idea de escapar a la vida de la capital de Francia, envuelta en un abrigo de piel de leopardo, y con un diminuto perito por compañero en los brazos. Esto ocurrió hace unos cuantos días, y ahora se prepara la estrella para hacer su estreno en Broadway. La esquiña está contrabandada por breves pasos.

Hacia ya varios años que los melanderos de los Estados Unidos esperaban con anhelo que viniera por acá la señorita Melier. En varias ocasiones había firmado compromisos con diferentes empresarios teatrales y musicales de esta patria; hasta había reservado pasaje a la ciudad de Nueva York, pero la estrella no apareció. Finalmente, después de haberse casado con un hombre de la clase de la que se le ha aplicado.

Se sabe que Melier no quiere ser Francisca Márquez López, y procede de una de las más viejas familias de Aragón, España. Pero la estrella cuando aún no cumplía ella los diez años, y fue puesta bajo la tutela de una tía suya, abadesa de un convento de religiosas. Allí creció, pues, en ambiente claustral, y aprendió a hacer bordados artísticos.

Gozaba de gran simpatía entre las monjas, a quienes sugestionaban los ojos grandes, misteriosos y trágicos de la muchacha. Pronto se dio cuenta la abadesa de que Raquel tenía una voz poco común, y se la cultivó con gran interés.

Vino por fin el día en que, por su edad, ya podía hacer voces de religión; pero la chica, que había sido de índole tranquila, soñadora y reticente, no gustaba de la idea de pasar el resto de sus días tras los muros de un convento. Así es que se fue a Barcelona. Allí se colocó en una tiendecita cercana a la catedral, donde se bordaban las vestiduras de los obispos y de otros dignatarios de la iglesia. La joven, trabajando gozosamente ante la ventana abierta, no cesaba de cantar, y no tardó la multitud en reunirse en la calle para oír su encantadora voz.

Algunos años adelante, al actuar en las tablas de Madrid, la oyeron cantar una noche el Rey y la Reina de España. Desde entonces, la artista una fotografía de la Reina, con esta dedicatoria: "Con todo mi cariño a Raquel Melier". Raquel Melier se ha casado varias veces.

NOTAS LOCALES

Signo el Tremendo Incendio de Petróleo en Brea

Por los últimos informes recibidos de la Union Oil Company, acerca del incendio que está consumiendo sus depósitos de petróleo en la estación Stewart, cerca de Brea, se sabe que está condenado a perder un cuarto de millón de barriles de petróleo.

El petróleo ardiendo que vomita una de las tres cisternas en combustión, se ha extendido hasta unos 1000 pies del número 14, y declara los operarios que solo podrá salvarse ese depósito si se levantan a toda prisa diques de tierra.

Los estragos causados hasta aquí por este enorme conflagración son los siguientes: no se sabe lo que les ha ocurrido a tres obreros desaparecidos; otros cuatro han sido lesionados; tres casas de rancho y treinta habitaciones de operarios han quedado destruidas por el fuego, y unos 100 acres de plantíos de naranjos, limoneros y nogales han sido arrasados por las llamas. Se calculan los daños materiales entre cuatro y seis millones de dólares.

Después de haber recibido informes de sus oficinas en Brea, ubicaron anoche una declaración de los directores de la compañía petrolera, que se hallan en Los Angeles, en la que manifestaron que a su juicio, ha pasado la crisis, y que se salvarán del fuego otros dos enormes depósitos subterráneos de 750,000 barriles de capacidad cada uno, y diecisiete cisternas superficiales de 55,000 barriles. Agradecemos el caso de que las llamas seguirán probablemente por varios días.

DEPORTES

Boxeo

Ayer fue una tarde muy movida en las estaciones ferroviarias locales. En tanto que Jack Kearns y Napoleon Dorval, su protegido neoyorquino, salían por el Golden State Limited, tren rápido del Sud-pacífico, Gene Tunney, aspirante a corona de Jack Dempsey, llegaba por la vía de Santa Fe, con su apoderado, Billy Gibson. Y por último, otra celebridad, "Beans" Reardon, que va a batrenarse en el Arbitro de Liga Mayor, entraba semana, partió por el mismo tren que Kearns.

En el Este, Kearns, además de arreglar varias peleas para Dorval, tratará de ultimar los detalles de la contienda que tendrá en Scranton (Pensilvania), entre Mickey Walker, su pupilo de peso welter, y Pete Latzo.

Angelino Dies in Auto Crash on Ridge Route

(EXCLUSIVE DISPATCH) BAKERSFIELD, April 9.—Adolph Neveux, 50 years of age, of Los Angeles, was killed instantly late last night when the automobile in which he was an occupant collided with another car near Lebo on the Ridge Route. W. H. Harris, a brother-in-law of Neveux, was driving the car in which Neveux met death. He was not injured. According to Harris, the driver of the other automobile did not stop or offer to render aid.

SON OF FINANCIER COMMITS SUICIDE

(EXCLUSIVE DISPATCH) NEW YORK, April 9.—John C. Hiltion, son of Frank C. Hiltion, vice-president of the Manhattan Company, bankers and editor of the "New York Evening Post," killed himself today. Dictating to a stenographer in the offices of an advertising agency he suddenly snatched up a pair of dull scissors, stabbed himself eleven times, then leaped from the twentieth story window. He had been ill and depressed for several days.

ARMY AIR SERVICE MANEUVERS SET

(BY A. P. NIGHT WIRE) WASHINGTON, April 9.—Annual machine gun and bombing matches between Army air service units will take place at Langley Field, Va., beginning May 5.

**News of Ships
and Sailings at
Pacific Ports**

SAN FRANCISCO, A. P. NIGHT WIRE
SAN FRANCISCO, April 9.—The White Fir
Line steamer *Bismarck*, which developed trouble
Wednesday when five miles off Port San Luis, ar-
rived here today in time of the tug *San Antonio*.
The condenser cooling broke in a sixty-five mile-
an-hour gale, forcing the vessel to put out her
anchors and await the arrival of a tug.
The tug *San Antonio*, which President Taft sails from
here tomorrow for Honolulu, and which will re-
ports, a delegation of twenty-seven residents of
the city and the southern California cities will
be on board. The *Bismarck* is a regular
the world cruise.

[illegible]

The ship loaded copper and 100,000 feet of airplane spruce.

The *Albatross*, liner Crickert was in during the night to discharge cargo. The ship came from California and left today for Gray's Harbor to get lumber.

SEATTLE, April 9.—After loading a large shipment of copper ingots at Tacoma and grain at Vancouver, the *Albatross* left today for Seattle from Bain City was to leave here tonight for the United Kingdom.

With cargo of ore from Altonite Coast port, the steamer *Heinis*, owned by the Warrenton-based Northwest Steamer Co., left today for Everett. Outward she is to load lumber at Everett.

Shifting here from British Columbia to Russia, the *Albatross* is to load lumber at Seattle and then to Kalish liner *Grakna* Maru arrived here today.

With a cargo of wallboard, lumber and general cargo, the *Albatross* is to leave today for Seattle, where tomorrow for the Altonite Coast.

PORTLAND, April 9.—The *Isthmian Line* steamer *Steel Maker*, in port for the first time since 1914, left today for Seattle.

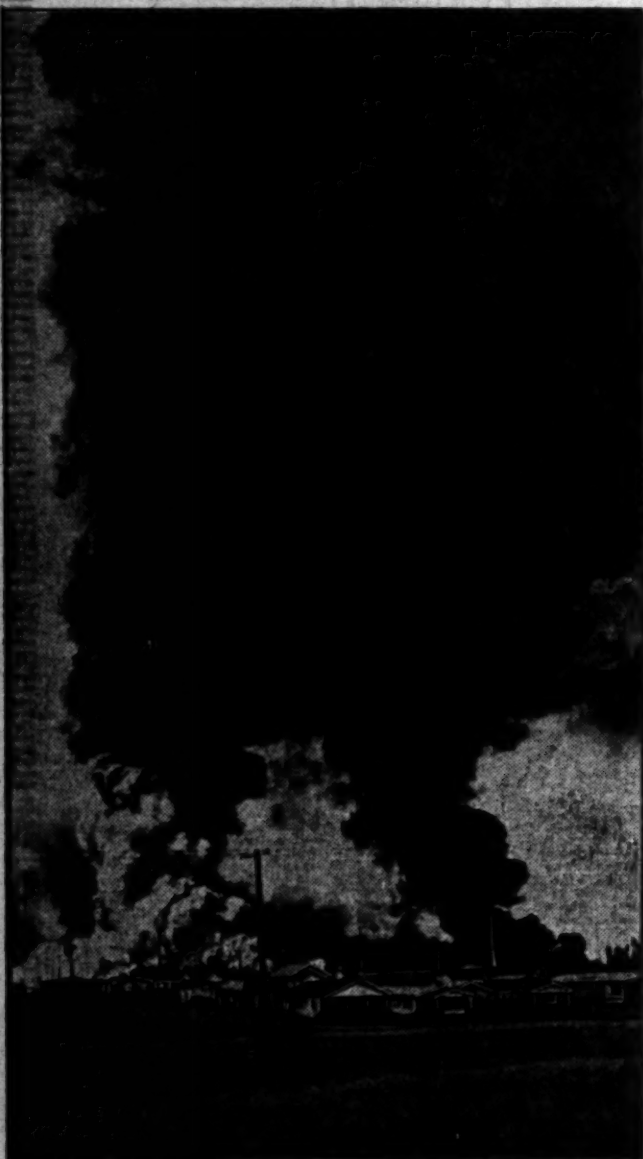

Big Light for Its Birthday
The city of Gary, Ind., which was founded in 1906 on a sand dune and is today a community of

75,000, celebrated its twentieth birthday by installing a large system of improved street lighting.

GROWTH IN CIRCULATION

The New York Sun

Six Months Ending March 31, 1926,

Compared with March 31, 1925

Chart based on Publishers' Circulation Statement to U. S. Govt.

AMONG those New Yorkers who constitute the best market for advertised products—the prosperous, intelligent, responsive New Yorkers—The Sun has a greater appeal than any other New York evening newspaper.

It is for this reason that manufacturers and merchants have found it so profitable to advertise their products in The Sun. It is for this reason that advertisers use more space in The Sun than in any other New York evening newspaper.

Leadership in Advertising

In March, for the ninth consecutive month, The Sun led all New York evening newspapers in total volume of advertising.

The Sun's gain in advertising in March, 1926 (compared with March, 1925), was 341,022 lines—a greater gain than that of any other New York newspaper, morning, evening or Sunday—a greater gain also than that of all other New York evening newspapers combined.

During the first quarter of 1926 advertisers placed 4,194,926 lines of total advertising in The Sun—which exceeded by 360,036 lines the volume of advertising placed in the second New York evening newspaper.

National Advertisers as well as Manhattan Department Stores have for years used more space in The Sun than in any other New York evening newspaper.

Growth in Circulation

The Sun's net paid daily average circulation for the six months period ending March 31, 1926, was 259,351.

This represents an increase of 11,981 over the corresponding six months of 1925.

What is most significant about this circulation increase is that it is a natural, steady, sound increase, won purely on the merits of The Sun as a newspaper. It is in no way a forced increase. It was not secured through contests or prizes, or through any series of special articles or through any other similar form of promotion designed to swell circulation.

The Sun's circulation increase is the kind that is most valuable to advertisers, for it represents new readers who, like the older ones, believe in The Sun and have confidence in the advertisements as well as in the news it publishes.

A Very Rigid Censorship on All Advertising Is Maintained.

OIL OVERDISCOUNTED

Pacific Coast Orders Influence Partial Recovery in Union Shares; Storage Supply Impressive

BY EARLE E. CROWE
Following its usual custom, the stock market has overdiscounted the effect of the tank fire losses on the operations of the Union Oil Company.

Wheat Market Reacts After Early Upturn

CHICAGO, April 9.—The wheat market made a poor response to the strength in Liverpool, and with pressure from houses with northwestern contracts and the weakness in corn, May wheat fell from 1.40 to the opening to a low of 1.38, and closed 1 3/4 lower at 1.37 1/2.

RUMORS DISSOLVED
Southern California Edison company was the victim of similar circumstances at the time of the Santa Barbara earthquake.

Conservatively estimated, the amount of light and heavy crude oil, gasoline, and natural distillates stored in the Pacific Coast at this time, is approximately 1,750,000 barrels.

STORAGE LARGE
At its Olean and Wilmington refineries, Union Oil, on the basis of trade estimates, has approximately 1,750,000 barrels of oil products in storage.

STANDARD OIL NET PROFIT UP

Annual Report of California Company Announced

Business Last Year Largest in History

Crude Production Shows Large Increase in 1925

Net profits of the Standard Oil Company of California for the year ended December 31, last, were \$30,953,485.15, an increase of \$4,351,871.41, or 16.36 per cent over the preceding year.

During 1925 Standard Oil of California did the largest business in its history, Mr. Kingsbury states in the report, but price conditions reflected the continued overproduction of crude oil.

EMPLOYEES' STOCK PLAN
The total capital stock outstanding on December 31, last, amounted to 5,516,434 shares.

Production of crude oil during 1925 from the company's wells was 3,652,882 barrels, an average of 10,000 barrels a day.

TRADE INDICATOR POINTS UP

Smart Gain in Demand for Power and Light Current This Year Reflects Sound Conditions

BY PAUL WILLARD GARRETT (EXCLUSIVE DISPATCH)
Copyright, 1926, by New York Evening Post, Inc.

NEW YORK, April 9.—An uncommonly interesting ray of light on the question whether the early 1926 decline in stocks, started as a reflex of poor business, has been found by one of the industries whose securities suffered most in the market.

Utility securities were among those to drop first and furthest, when the break came, but the authorities of the power and light industry have been quick to show that, at bottom, business for the industry is better than ever for the season of the year.

There is every reason to fear a serious setback in the electrical industry such as some persons have predicted on the basis of the recent downturn in utility stocks.

Western Rail System Chief is Optimistic
BY A. P. NIGHT WIRE
NEW YORK, April 9.—Carl Gray, president of the Union Pacific, who is in the East after a trip to the Pacific Coast, says the financial situation in the West is especially good and distributors generally look for a normal year's business.

PROSPECTS FOR FALL WHEAT IN EASTERN OREGON were promising with indications of a good crop, but the average crop in Kansas and Nebraska, Idaho is somewhat short of a normal storage of water but the reservoirs are expected to be filled before May 1.

CLOSED CARS LEAD IN PLANT OUTPUT
In February, 82 per cent of all cars sold by General Motors were closed cars, compared with 54 per cent in February of the preceding year, 28 per cent in 1924, 35 per cent in 1923 and 29 per cent in 1922.

BROWN JOHN Mortgage Firm
Richard Brown, for five years engaged in the real estate business with the firm of Ford & Becker, has become a member of the sales staff of the Mortgage Insurance Corporation.

NEW YORK BONDS

New High Score
NEW YORK, April 9.—Fresh strength was infused into the bond market today by the earnings of time-money rates. With several representative issues lifted to new high levels for the year, signs accumulated that a large part of the money released from speculative stock-market loans was finding its way into investment channels.

Despite the unimpaired upward trend of prices in all divisions of the bond list, selective buying rather than vigorous bidding was the dominant note of trading. Funds were readily available for the purchase of high-grade obligations, but the volume apparently was not great enough to force an outlet into the more speculative securities in the absence of any stimulating news.

Railroad and public-utility bonds continued to attract buying orders today, while a stronger movement developed to pick out miscellaneous issues which had been neglected in recent trading. Moderate gains were scored by each bond class as the year-old upward trend was given additional impetus by indications that the truce between the Van Hookings and the Chesapeake and Ohio would smooth the way for a new Nickel Plate merger plan. All the Van Hookings issues, including Nickel Plate, Chesapeake and Ohio, Pere Marquette and Erie bonds, firmed ahead, and there was a marked revival of interest in other carrier obligations affected by merger negotiations. Frisco, Wabash, Rock Island, Erie, N. Y. N. H. & H., Ontario and Western, New York Central and Baltimore and Ohio bonds took part in the advance.

With the exception of French obligations the foreign group displayed a firm undertone. South American issues were strengthened by the prospective notation of a loan for Uruguay.

Reflected on yesterday's stock and bonds market, the bond market today was characterized by a steady upward trend, with a marked revival of interest in other carrier obligations affected by merger negotiations. Frisco, Wabash, Rock Island, Erie, N. Y. N. H. & H., Ontario and Western, New York Central and Baltimore and Ohio bonds took part in the advance.

MARKET AVERAGES

(EXCLUSIVE DISPATCH)
NEW YORK, April 9.—Today's stock market was characterized by a steady upward trend, with a marked revival of interest in other carrier obligations affected by merger negotiations. Frisco, Wabash, Rock Island, Erie, N. Y. N. H. & H., Ontario and Western, New York Central and Baltimore and Ohio bonds took part in the advance.

NEW YORK CURB STOCKS

(BY A. P. MORT WIRE)
NEW YORK, April 9.—Renewal of selling pressure against the bak- ing chain featured the irregularly lower movement in today's curb market. General Baking A. broke 1-3 points to 50 and the B stock yielded over a point to 5-4, but recovered half its loss. Purdy Baking dropped nearly 3 points to 11 on a couple of sales and Continental Baking B showed a large fractional loss at 14-3-4. There was nothing in the day's news to explain the selling of these shares.

Strength of Electrical Refrigeration, which advanced over 3 points to 61-5-8 in anticipation of the inauguration of dividends and the publication of a favorable earnings statement on Monday, was one of the few other features. Motors were heavy, Stutz dropping a point to 21-1-8 and Rickenbacker and Republic motor truck certificates duplicating the year's loss. Franklin showed independent strength, admitted to trading, selling around 18.

New low prices for the year also were recorded by Allied Packers, Pillsbury Company, Habeling Corporation, Rock Industries, Rayburn, Rubber, Rand Kardex and Seiberling. Rubber American Sumatra, Rock Industries, Rayburn, Rubber, Rand Kardex and Seiberling. Rubber American Sumatra, Rock Industries, Rayburn, Rubber, Rand Kardex and Seiberling. Rubber American Sumatra, Rock Industries, Rayburn, Rubber, Rand Kardex and Seiberling.

GOOPS!

A Daily Lesson in Manners for Children

BY GELETT BURGESS

TOMBOYS

We don't have Tomboys, nowadays. A Girl can play at all Boys' plays. But still, I know of some so rude.

That, sometimes when they're playing, you'd think they were worse than any boy.

Girl Goops like that, I don't enjoy.

WHAT'S DOING TODAY

SPANISH FLYER MEETS ACCIDENT AT CAIRO

(BY CABLE AND ASSOCIATED PRESS)

CAIRO, April 9.—Aviator Estévez in the Spain to Manila flight punctured a tire on landing here. His airplane is being examined here and if the under-carriage is found not to have been strained, he will leave for Baghdad with his two companions on Saturday morning.

FINAL RUSH STARTS TO DIAMOND FIELD

(BY CABLE AND ASSOCIATED PRESS)

JOHANNESBURG (South Africa), April 9.—The Transvaal region, near Ventersburg, south of the Witwatersrand Mountains, was the scene today of a final rush to the newly discovered diamond fields. The stampede included not only adventurers and unemployed, but professional men and farmers.

POLLUTION WITH OIL TO BE DEBATED

America Calls Meeting of Maritime Powers to Deal With Problem

(BY A. P. MONT WIRE)

WASHINGTON, April 9.—A conference of maritime nations has been called by the United States government to meet in Washington June 8, next, for the purpose of "dealing with the problem of pollution through international agreement." Invitations have been sent to Belgium, Denmark, France, Germany, Great Britain, Greece, Italy, Japan, The Netherlands, Norway, Spain and Sweden.

Conclusions of an interdepartmental committee which led to the conference will, made public by Secretary Kellogg, point out that oil pollution exists in a most aggravated form along the Atlantic, Gulf and Pacific coasts, and along the coasts of the principal maritime nations.

"The principal measures that have been considered with a view to the elimination of oil pollution originating on the high seas," the announcement said, "are that ships be prohibited from pumping oil or oil mixtures at sea; that ships be required to utilize facilities in harbors for the collection and disposal of such accumulations; and that the discharge of oil or oil mixtures within a stated distance of any coast be prohibited; and that individual oil-burning oil cargo ships be equipped with devices which would separate out the oil or oil mixtures in question."

REVOLT AT SALONIKI CURBED BY GREEKS

(BY CABLE AND ASSOCIATED PRESS)

ATHENS, April 9.—An insurrection at Salonika has been suppressed. It was officially announced today that the insurgents have surrendered unconditionally.

(BY CABLE AND ASSOCIATED PRESS)

ST. LOUIS, April 9.—With an eighty-four-page issue, the St. Louis Post-Dispatch today established what it declared to be "a new high world record for a newspaper published in any of the leading cities of the world."

The paper published in any of the leading cities of the world. The paper published in any of the leading cities of the world. The paper published in any of the leading cities of the world.

TRADE RECORD SET

VANCOUVER (N. C.) April 9.—Canadian trade with Japan passed the \$35,000,000 mark in 1925 and created an outstanding record, with upward indications for 1926, according to figures issued by T. Kawai, Japanese Consul here.

Arrest Reveals Balkan Plot to Launch Revolt

(BY CABLE AND ASSOCIATED PRESS)

SOFIA (Bulgaria), April 9.—Police arrest in the arrest of Cristo Kabachnikov on the Serbian frontier, while he was trying to escape to Russia, they have obtained information concerning the existence of a widespread plot of Bolshevik origin.

The plot, they declare, embraces the starting of a new revolution in the Balkans, murder of bourgeois leaders, and the promotion of disorders in Bulgaria, Serbia and Greece.

THE WEATHER

LOCAL OFFICE OF U. S. WEATHER BUREAU, Los Angeles, April 9.—(Forecast by H. B. Brown, Meteorologist.) At 5 o'clock a.m. the barometer registered 30.02; at 8 p.m., 29.98. Thermometer for the corresponding hours showed 59 deg. and 64 deg. respectively. Wind, S.W., 10 to 15 m.p.h. Rainfall for week ending April 7, 1928, 0.10 inch. Normal to date, 1.63 inches; but season to date, 2.48 inches. No record reduced to sea level.

WEATHER CONDITIONS—April 9. Light to moderate rain fell during the day and evening hours in the Atlantic States and in the Middle Atlantic States. It is under this morning in the Ohio Valley, Eastern Tennessee and the Middle Atlantic States, but the temperature was followed by clearing weather last night, and it is clear or partly clear at most stations today. Fair weather may be expected in the afternoon, with moderate temperatures.

TEMPERATURE—April 9. At Los Angeles, 59 deg. at 5 a.m., 64 deg. at 8 p.m. Normal to date, 1.63 inches; but season to date, 2.48 inches. No record reduced to sea level.

PLAN GAY AIR-MAIL OPENING

Arrival of First Transcontinental Plane Saturday to be Celebrated at Landing Field

Plans for a mammoth public demonstration to celebrate arrival here of the first plane to bear transcontinental air mail directly to Los Angeles were laid yesterday at a meeting of the air transportation committee of the Chamber of Commerce.

W. H. HOUSH ENDS WORLD TRIP IN JUNE

Principal-Emeritus Will Return for Graduations at Los Angeles High

William Harvey Housh, principal-emeritus of Los Angeles High School, who set out August 25, 1925, for a round-the-world tour that was made possible by the generosity of the alumni, will return to attend this year's graduation exercises.

TRIO HURT IN FREAK ACCIDENT

Automobile Struck from Behind by Street Car Hits Pedestrians at Crossing

Two men and a young woman suffered painful bruises and cuts in a freak accident yesterday, when an automobile was struck from behind by a street car and thrown against them as they were crossing the intersection.

MISS SEASTROM BACK IN FILMS AFTER ILLNESS

Dorothy Seastrom and Colleen Moore are devoted chums. When the musical comedy, "Irene," was being produced for the screen last fall by the First National, starring Miss Seastrom, Miss Dorothy was called to the hospital by a severe illness.

SUIT FILED TO CANCEL DAM RIGHTS

Insufficient Work to Warrant Continuance of Possession Charged

Equity suit to cancel right of way and easements given to the Hamilton Irrigation Company in the Angeles National Forest by the United States government was filed in Federal District Court yesterday by Attorney, on behalf of the government.

SCOUT BAND TO PLAY

The Boy Scouts' Band will furnish music during the luncheon meeting at the Alexander Monday of the Council for the Promotion of Boys' Work.

MISS SEASTROM BACK IN FILMS AFTER ILLNESS

Dorothy Seastrom and Colleen Moore are devoted chums. When the musical comedy, "Irene," was being produced for the screen last fall by the First National, starring Miss Seastrom, Miss Dorothy was called to the hospital by a severe illness.

TARIFF TREATY CONSIDERED

Agricultural Pact and Quarantine Commission Urged at American-Mexican Conference

A reciprocal tariff treaty covering agricultural commerce between the United States and Mexico and organization of an international quarantine commission for agricultural purposes were advocated at a United States-Mexico trade conference held here yesterday under auspices of the Chamber of Commerce.

OPENING OF VIADUCT POSTPONED FOR WEEK

The new Macy street viaduct, which was to have been opened to traffic today, will be kept closed until next Saturday by order of the Board of Public Works.

REDISTRICTING GIVEN IMPETUS

San Francisco Registrar of Voters Pledges Aid

Reapportionment Chart of City Will be Made

All-Parties Campaign Ready to be Put in Motion

Definite assurance of support in redistricting San Francisco county as part of the general scheme of State reapportionment has been received from Registrar of Voters Zemansky of San Francisco, according to an announcement yesterday by Ralph Arnold upon his return from the north.

Canada Would Like to Acquire Point Roberts

Point Roberts, a small peninsula on the border between the United States and Canada, has been the subject of much discussion in recent years. The Canadian government has expressed a strong interest in acquiring the point, which is currently under the jurisdiction of the United States.

WOMEN, ONE DYING, FOUND IN MOUNTAIN SHACK

A doctor and rescuers dash to aid the women, one of whom is dying, after they were found in a mountain shack. The women were found in a state of extreme distress and were being treated by the doctor.

BOILER-ROOM GENIUS

One of the most successful cowboys of the day has only a dim idea as to which end of a cow goes first. He was a fireman working on a stationary oil-burning engine. While the oil whiffed into flame, he got a typewriter and—right there in the boiler-room—pounded out cowboy stories of the West (as it never was) until he just had the editors licked. And now he has his own chauffeur.

THE LANCER

By Harry Carr. T. EARS shed over the passing of old Spring street have come too late. As a matter of fact, the real old Spring street slipped into the past a long time ago. Of recent years it has been nothing but a string of shabby little shops, without romance.

PEACOCK ALLEY

Where Spring street emptied into Main was the wheel of fashion and high society. In the old hidalgo days the young bloods used to grease a place in the road and have contests in horsemanship—to see who could yank his horse back and make him slide farthest on his haunches.

COOPER TALES

It is extraordinary—the lasting hold that J. Fenimore Cooper has over the passing generations. When Von Hindenburg celebrated the sixtieth anniversary of his army service the other day this was one of the interesting facts: That, as a lonely little cadet at a German military school, the Christmas present that he most wanted was a copy of "The Deerslayer."

FAKE INDIANS

Although Cooper's Indians weren't in the least like real Indians, he wasn't any further off the mark than most of the modern western writers. Leo Crane, who was a magazine writer before he became an Indian agent, says, with engaging candor, that he wrote most of his early western stories by clanking the "dope" out of government reports, and faking in the atmosphere of the West as he thought it ought to be.

BOILER-ROOM GENIUS

One of the most successful cowboys of the day has only a dim idea as to which end of a cow goes first. He was a fireman working on a stationary oil-burning engine. While the oil whiffed into flame, he got a typewriter and—right there in the boiler-room—pounded out cowboy stories of the West (as it never was) until he just had the editors licked. And now he has his own chauffeur.

VOYAGER ENTERTAINED

Mrs. Howard L. Terry, president of the California Association of the Deaf, who is leaving shortly for Europe accompanied by her husband and two sons, was a guest of honor at a luncheon given in the Biltmore yesterday by Mrs. Joe Sonnenborn of 1648 Buckingham Road.

CREAM OF CARROTS
Cover two cups of grated raw carrots with four cups of boiling water, add half a teaspoonful of salt, half a bay leaf and eight whole peppercorns. Boil for 15 minutes and press through a sieve into a clean saucepan. Melt three tablespoonfuls of butter in a saucepan and add the thickening. Stir gradually and in two cups of hot milk and stir and cook three

two-teaspoonfuls of sugar, one-third of
 a teaspoonful of seedless raisins, a
 cupful of cooked rice and one and
 three-quarters cupfuls of sifted
 flour stirred with one-quarter of a
 teaspoonful of baking soda, half a
 teaspoonful cinnamon, half a tea-
 spoonful of cloves and half a tea-
 spoonful of baking powder. Place
 the mixture in buttered muffin
 tins and bake half an hour in a
 moderate oven.
